

### **About ANGARI Foundation**

ANGARI Foundation is a 501(c) 3 private operating foundation headquartered in West Palm Beach, FL. The Foundation is dedicated to creating a global community that is interested, knowledgeable, and invested in marine and environmental sciences by directly supporting research initiatives that foster a greater trust and dialogue between scientists and the public. ANGARI Foundation also uses innovative technology, film, and other media to raise awareness and strengthen science education. Many of the Foundation's primary initiatives involve R/V *ANGARI*, a 65-foot vessel that serves as an exceptional research and educational platform. For more information visit [www.angari.org](http://www.angari.org).

**Internship Type:** Science Communications

**Location:** West Palm Beach, FL. (U.S. and international travel may be required.)

**Duration:** Part-time (10-20 hrs/week including occasional evenings and weekends); starting ASAP and continuing for minimum of 4 months

**Stipend:** Monthly stipend is available and dependent on weekly hours arrangement. ANGARI Foundation is also willing to work with the intern to secure university course credit.

### **About the Position:**

ANGARI Foundation works to promote scientists and their ongoing research, while increasing public engagement in science via sharing of expeditions at sea. These goals are primarily achieved through social media, blogging, web postings, press, and film. The Foundation is seeking an intern who can take an active role in science marketing, including developing social media plans using photography and film for the Foundation and expeditions, with an emphasis on improved engagement. Further, the intern will participate in and attend local marine conservation and education events on behalf of the Foundation.

### **Primary Responsibilities:**

1. General Media and Marketing
  - Daily social media posting, engagement, and outreach (Facebook, Twitter, Instagram, and LinkedIn)
  - Website updates
  - Photography and film for social media and website
  - Assist with marketing efforts and development of promotional materials
  - Assist in database management
2. Expedition-specific Media and Marketing
  - Create expedition-specific social media plans
  - Implement developed social media plans
  - Assist with marketing efforts before, during, and after expeditions as needed
3. Community Engagement and Events
  - Participate in education and outreach events
  - Photograph and film when appropriate

**Required Knowledge, Skills and Abilities:**

- Currently completing or has already received 4-year college degree in relevant field
- Excellent written and oral communication skills
- Experience working with computers, software, and social media platforms
- Strong creative skills
- Strong organizational skills
- Meticulous attention to detail
- Ability to self-motivate and take initiative
- Ability to meet deadlines
- Ability to work well with both youth and adults
- Ability to work in team and individual settings
- Ability to work occasional evenings and weekends as needed

**Preferred Knowledge, Skills, and Abilities:**

- Knowledge of marine and/or environmental science
- Experience managing social media accounts
- Experience in scientific writing and/or journalism
- Knowledge of film and photography, including basic editing skills

**Additional Information and How to Apply**

This internship may require travel and working some evenings and weekends. While the majority of travel will be within the United States, international travel is possible, and therefore the applicant must have a current U.S. Passport. With the Foundation functioning throughout South Florida, the applicant also must possess a driver's license and car capable of such travel.

To apply, submit a cover letter, resume, copy of transcripts (unofficial accepted) and 3 references to Angela Rosenberg at [angela@angari.org](mailto:angela@angari.org). Applications will be accepted until position is filled.
