

SCIENCE EDUCATION & ENGAGEMENT INTERNSHIP (1 available)
WEST PALM BEACH, FL (U.S. and international travel may be required)

Duration: Part-time (average 20 hrs/week including occasional evenings and weekends); starting January 15th, 2019; 4-month term

Stipend: \$500/month; Foundation is willing to work with intern to secure university course credit as appropriate.

Supervisor: Director of Science Education & Advancement, ANGARI Foundation

About the Position: ANGARI Foundation works to promote scientists and their ongoing research, while increasing public engagement in science via sharing of science expeditions at sea with K-college classrooms and the public. These goals are primarily achieved through media, public outreach events, citizen science initiatives, classroom visits and virtual reality film. The Foundation is seeking an intern who will take an active role in science education and outreach, including developing educational materials in conjunction with expeditions and partner scientists. The intern will also help organize and participate in marine science education events on behalf of the Foundation.

Primary Responsibilities:

1. Education and Engagement
 - Assist with education efforts, including development of print and presentation materials
 - Facilitate lesson design associated with Foundation's 360/VR films and lead classroom implementation
 - Participate in citizen science, education and outreach events within the community
 - Support engagement through social media (Facebook, Twitter, Instagram, LinkedIn, Blog)
 - Foster relationships between the Foundation and its science and community partners
2. At Sea Expedition-specific Education and Engagement
 - Assist in development of expedition-specific educational programming
 - Execute education programs, including classroom visits and potential participation in research at sea
 - Photograph and film when appropriate

Required Knowledge, Skills and Abilities:

- 2-years minimum college experience in education or relevant science field
- Excellent written and oral communication skills
- Strong organizational skills
- A positive, can-do attitude with ability to both self-motivate and take initiative
- Ability to meet deadlines
- Experience working with computers, software and social media platforms
- Ability to work well with both youth and adults
- Ability to work in team and individual settings
- Ability to work occasional evenings and weekends as needed

Preferred Knowledge, Skills and Abilities:

- Knowledge of marine and/or environmental science
- Formal and/or informal education and mentoring experience
- Experience in scientific writing and/or presentation
- Experience working on boats and/or in the field
- Lifeguard and/or SCUBA certifications; DAN Insurance

Additional Information and How to Apply: Internship may require travel and working some evenings and weekends. While most of the travel will be within the United States, international travel is possible; therefore, applicant must have a current U.S. Passport. With the Foundation functioning throughout South Florida, the applicant should have a driver's license and access to a vehicle capable of such travel.

To apply, submit a cover letter, curriculum vitae, copy of transcripts (unofficial accepted) and list of 3 references with contact info to Dr. Amanda Waite at amanda@angari.org. Applications will be accepted until position is filled.
