

## ANGARI FOUNDATION CELEBRATES VIRTUALLY!

Hosted by **ANGARI Foundation** co-founders Angela and Kari Rosenberg, the evening celebrated the foundation and its partners' research projects and STEM education programs. Its distance-learning initiatives were also commended, as well as the award-winning 360 film "Generation Ocean: Sharks."

Guests hopped onboard the R/V ANGARI, the foundation's 65-foot oceanographic research vessel, through a video tour that took them on a marine science journey through the Bahamas and Florida. Scientists vying for a free day onboard presented why each of their research was more impactful. The audience voted its selection: Team Coral!

ANGARI Foundation is dedicated to creating a global community that is interested, knowledgeable and invested in marine and environmental sciences by supporting research initiatives that foster trust and dialogue between scientists and the public. Many of the foundation's initiatives involve R/V ANGARI as a research and education platform. [angari.com](http://angari.com)

## CIFFA "DOES AGE REALLY MATTER?" FASHION SHOW

In the spring, **Couture International Fashion, Flowers and Art (CIFFA)** hosted its second annual "Does Age Really Matter?" Fashion Show event at the Boca Raton Beach Club. Guests were received by harpist Marcos Vega and treated to fine art, oceanfront cocktails and hors d'oeuvres. The fun continued with a photo opportunity with a whimsical moss heel and purse sculpture, as well as a flower mural by De Marie Parfums. Guests enjoyed the vocal stylings of Kendra Erika and a fashion show of international designers and floral artists. A percentage of proceeds from the soiree benefitted El Puente Home, and Dominic Timpone and Jonathan Fuentes from Thos Fashion School of Design won a prize from the fashion competition.

CIFFA was founded in 2019 by Patricia Duch with a focus on helping emergent designers, unknown talents and artists around the world achieve their dreams. [ciffall.com](http://ciffall.com)
