

Small Nonprofit of the Year

ANGARI Foundation is the winner of the Hats Off Nonprofit Award for Small Nonprofit of the Year.

ANGARI Foundation, established in 2016 and headquartered in West Palm Beach, is dedicated to creating a global community interested in, knowledgeable about, and invested in marine and environmental sciences and conservation.

“This recognition by Nonprofits First is a testament to our dedication to advancing marine science education through our diverse and immersive programs and research initiatives,” says Angela Rosenberg, president of ANGARI Foundation. “We look forward to con-

tinuing this important work to invest in future generations of scientists, to share our marine environment with others, and to bring awareness of the importance of ocean conservation.”

The annual Hats Off Nonprofit Awards celebrates dedicated nonprofit organizations, staff, and volunteers in Palm Beach County who are committed to positively impacting the community.

Since its founding, ANGARI Foundation has advanced STEM education and ocean conservation across South Florida, reaching more than 55,000 people through community events, conferences, and films. The Foundation creates im-

mersive programs that engage both children and adults, including their Lagoon Drift Card Study and Coastal Ocean Explorers: Sharks program.
