

How to Navigate and Use the *Lagoon Drift* Interactive Dashboard and Map

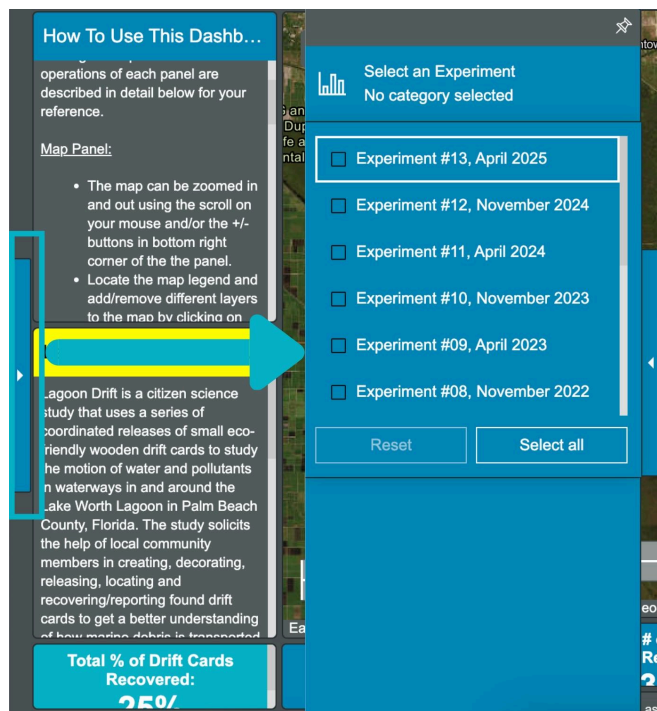

This dashboard consists of several panels that display a variety of data. The operations of each panel are described in detail below for your reference.

Map Panel

- The map can be expanded to full screen by clicking the three dots in the top right corner of the panel and then clicking the focus mode button.
- The map can be zoomed in and out using the scroll on your mouse and/or the +/- buttons in the bottom right corner of the panel.
- Locate the map legend and add/remove different layers to the map by clicking on the icons located in the top right of the panel. Layers that can be chosen include:
 - *Lake Worth Lagoon Drift Card Study* data
 - *Indian River Lagoon Drift Card Study* data
 - Lake Worth Lagoon Drift Card Hotspots

- Lake Worth Lagoon GPS-Enabled Drifter 1 (May 01, 2026)
 - Lake Worth Lagoon GPS-Enabled Drifter 2 (May 01, 2026)
 - Lake Worth Lagoon watershed border
 - Canals and streams
 - Shoreline characterization
 - Areas of marine debris accumulation in Jupiter
 - Intracoastal Waterway (ICW)
- Click the wrench icon  in the top left-hand corner of the panel to use the measurement tools. To finish drawing your measurement double click on the map.
 - Select specific experiment/release site data by clicking the blue arrow on the far left side of the dashboard to open the category selection options.

- Drift card reports and deployment sites are located on the map. Click on them to get additional details.
 - Drift card report: 
 - Drift card deployment site: 

Experiment Weather and Tide Data Panel

- View data for each experiment by using the left and right arrows in this panel to toggle . Alternatively, click the experiment number at the bottom between the arrows to select an experiment from the menu.

Experiment Chart Panel

- View a different chart by using the left and right arrows in this panel to toggle.

Alternatively, click the chart name at the bottom between the arrows to select an experiment from the menu.

- Hover over the chart to view specific data.
- Select the names in the bottom legend of the chart to toggle location data on and off.
