

2 POLYLINE AND BUOY

This floats on the surface of the water to mark the location of the BRUVS.

3 CAMERA

This is turned on and attached to a mount to collect footage of any species that pass by the bait cage.

4 BAIT CAGE

Chunks of bait are added to a small metal cage and attached to the arm of the BRUVS in order to attract marine species.

1 BRUVS

Noninvasive tool in marine science used to observe species abundance, diversity and behavior in an ecological area.
